Company : Sprinklr
Company Name : Sprinklr
Nature Of Business : IT
Designation : Platform Software Engineer
Tentative Job Location : Gurgaon

Who We are: At a time when consumers are connected and empowered like never before, Sprinklr is helping the world's largest brands provide amazing experiences at every turn. Sprinklr offers a set of powerful social capabilities that allow our clients to reach, engage, and listen to customers across 24 social channels. We empower entire organizations to work together across social, marketing, advertising, research, and customer care to manage customer experience at scale. Most exciting, Sprinklr works with 50% of the Fortune 500 and nine of the world's 10 most valued brands, including McDonald's, Nestle, Nike, P&G, Shell, Samsung, and Visa.

At Sprinklr, we're customer-obsessed, treat one another like family, and take extreme pride in who we are and what we're building. It is core to who we are as a company.

About the Role-

Sprinklr powers interactive searches and aggregations on billions of documents in real-time, finding relations between millions of data points, and processing events at an extremely large scale. We are looking for engineers who will work with us on systems that make this scale possible.

What will you do: As a Platform Software Engineer in Sprinklr, you will be working with us on problems involving:

- Advanced Information Retrieval
- Distributed Computing
- Database Architectures
- Largescale Systems Design

You'll be responsible for architecting and developing systems that will power the entire infrastructure of Sprinklr R&D. The work will involve a fast-evolving codebase keeping scale, resilience, and performance as top priorities. We are looking for candidates with a passion for new challenges having interests in

- Operating Systems
- Distributed Software Systems
- Programming Languages and Compilers
- Database Implementations

Description :

What makes you qualified:

- Ability to work both independently and in cooperation with others
- A sense of urgency and ownership over the product
- Comfortable with full-stack projects and able to build a minimum working product quickly
- Fluency with back-end technologies like Core Java, J2EE or front-end Technologies like JavaScript , HTML, or CSS
- Thrives in an open or ambiguous environment
- Great attitude towards work and people
- Intellectually curious and inventive

Why You'll Love Sprinklr: We offer a flexible work environment, unlimited vacation, and generous pay and benefits packages. While we have some amazing perks, at the end of the day, Sprinklrites are here for the opportunity to grow, learn, and affect the industry with incredible ingenuity.

- **We focus on our mission :** We believe social technology is the future of customer-brand relations across all departments, and we seek to make each of those experiences excellent at every touchpoint. This is how we all make the world more socialtogether.

- **We invest in our people** - Sprinklrites passionately, genuinely care about seeing one another succeed in making an impact on the industry. We pride ourselves on having an honest, open environment and a supportive culture where we can take risks together
- **We believe in our product** - Sprinkl'r is the most complete enterprise social technology in the world, and we're not just saying that Forrester Wave said it for us! As such, we have many of the world's largest brands as our clients, and our employees have the opportunity to work closely alongside them.
