Company : JPMorgan Chase & Co.
Company Name : JPMorgan Chase & Co.
Nature Of Business : CCB – Fraud Strategy Planning & Analysis
Designation : CCB Analyst
Tentative Job Location : Mumbai or Bengaluru

Work within the newly formed Focused Analytics Solutions Team which unifies data and analytics talent across JPMorgan Chase to responsibly leverage data to build competitive advantages for our businesses with value and protection for customers. The team encompasses a variety of Data & Analytics disciplines, from data governance and data strategy/partnerships to reporting, data science and machine learning, and are actively engaged in work that impacts employees and the customer through Sales and Marketing transformation.

We have a strong partnership with our dedicated Technology partners, who provide us with our cutting edge data and analytics infrastructure. Joining our Focused Analytics Solutions Team means you sit in the engine that powers JPMorgan Chase with insights, providing an opportunity to materially impact both our customer and business outcomes. The team also offers significant learning and mobility opportunities for career development and future growth.

Working here means joining a collaborative, supportive team. We want your diverse perspective to help us innovate the next wave of analytical products and solutions for our clients. We’ll give you what you need to succeed from training to mentoring from senior leaders to projects that engage all your skills

WHAT YOU CAN EXPECT

Description : Around mid of 2021, FAST Analysts will join the **Data Analytics Corporate Center, India** and gain exposure to a variety of analytics techniques, business lines and datasets while uncovering creative and innovative ways to solve business problems using an assortment of data science methods, algorithms and techniques. FAST Analysts will spend an average of 1.5 - 2 years in the group in a consulting-like atmosphere which will give exposure to many different topics and Lines of Business across Chase’s consumer businesses. Projects can range from 4 weeks to a few months, offering significant opportunities for a variety of experiences. It is expected that an Analyst will eventually leave FAST for a Line of Business or other role, but the timing is on your schedule: If you find a place you would suit within the first year, you can move as soon as you find a position you love. If you enjoy the variety of FAST, you can stay longer than 2 years and help train our future classes while continuing to lead a variety of projects across Chase’s businesses.

You’ll make an impact by

- Helping the team manage fraud loss line of ~\$0.5 billion across Credit & Debit card portfolios and make a direct financial impact to the firm
- Developing medium to complex analytical fraud risk strategies on Big Data platforms leveraging statistical techniques and implementation of machine learning models
- End to End ownership and accountability of key portfolio segments to mitigate fraud losses and enhance customer experience
- Assist team in managing critical score upgrades that influence strategy outcomes by working with internal / external modeling partners or vendors
- On-going engagement with senior leaders within Operations and Risk groups
- Effective collaboration with Modeling, Operations, Tech and Finance teams to build best in class industry leading solutions and fraud loss mitigation capabilities

FAST group in Data Analytics Corporate Center India, is an opportunity to accelerate your career through hands-on data analytics, management and professional networking experience, and career control that is generally not available in other “rotational” programs.
