Companies open to your department

Company : Udaan

Company Name : udaan

Nature Of Business :

Designation : Engineer

Tentative Job Location : Bangalore

About the Role:

• You will be a part of the technology team at Udaan, which essentially deals with the ecommerce platform and the tech stack of the organization. Tech Stack at Udaan: • Kotlin/Java for backend • Javascript for the frontend • React Native for Android & iOS app • ReactJS with Redux for website • Kubernetes + Docker • Azure cloud services

Description : • Key Requirements:  
• Good Software engineering skills: It could be in any language or technologies of your choice, but you are expected you to know them deeply. In addition, you are to be a quick learner in any new technology that you get exposed to.  
• Product Thinking & Problem Solving: We need our engineers to deeply understand customer needs, business use-cases, and connect that back to the products we are working.  
• Ownership: we believe in end-to-end product ownership. You will be responsible for all aspects of your product from figuring out to what features to build to ensuring uptime and a smooth customer experience.
