Role- Product Engineer

Who We are: At a time when consumers are connected and empowered like never before, Sprinklr is helping the world's largest brands provide amazing experiences at every turn. Sprinklr offers a set of powerful social capabilities that allow our clients to reach, engage, and listen to customers across 24 social channels. We empower entire organizations to work together across social, marketing, advertising, research, and customer care to manage customer experience at scale. Most exciting, Sprinklr works with 50% of the Fortune 500 and nine of the world's 10 most valued brands, including McDonald's, Nestle, Nike, P&G, Shell, Samsung, and Visa.

At Sprinklr, we're customer obsessed, treat one another like family, and take extreme pride in who we are and what we're building. It is core to who we are as a company.

About the Role-

Sprinklr is looking for Product Engineers who can develop massively scalable,distributed software systems built on strong competencies in data structures and algorithms. So, if you desire to create and implement full product life cycles, and code solutions that involve research and interactivity, Sprinklr is the best workplace to be in.

What will you do :

Â· You will be part of a fast paced young team, your experience will matter the most and should be genuine and in-depth in subjects youâ€™ve worked on

Â· Breathe programming! The role calls for strong programmers who work on emerging business requirements

Â· Participate in brainstorming sessions and contribute ideas to our technology, algorithms and products

Â· Dive into difficult problems and successfully deliver results on schedule

Â· Build reusable code and libraries for future use

Â· Tech-savvy professional, who is curious about new digital technologies

What Makes you qualified:

Â· Ability to work both independently and in cooperation with others

Â· A sense of urgency and ownership over the product

Â· Thrives in an open or ambiguous environment

Â· Great attitude towards work and people

Â·Â Â Â Intellectually curious and inventive

Technical Specifications :
We use TypeScript to develop modular and scalable systems, so as to enable us to serve our dynamic requirements around learning and build on top of a neat code structure. We definitely don't expect you to be familiar with everything we use, but strong aptitude and good problem solving skills, along with knowledge in JavaScript, and ideally Typescript would be a plus.

Brief overview of tech stack:

- React Frontend (using Create React App, NextJS, GatsbyJS) for web applications

- In-house Space Design System with React component library.

- Style Dictionary to build bespoke designs without any annoying opinionated styles that we have to Â Â Â Â Â fight to override

- GraphQL, react-query to query and mutate data

- Jest & React Testing Library for Unit Tests

- Code Review Pipelines to ensure compliance with ESLint + Prettier rules & ZERO Unit Test Failures.

Why You'll Love Sprinklr: We offer a flexible work environment, unlimited vacation, and generous pay and benefits packages. While we have some amazing perks, at the end of the day, Sprinklrites are here for the opportunity to grow, learn, and affect the industry with incredible ingenuity.

- **We focus on our mission** : We believe social technology is the future of customer-brand relations across all departments, and we seek to make each of those experiences excellent at every touchpoint. This is how we all make the world more socialÃ'together.

- **We invest in our people** - Sprinklrites passionately, genuinely care about seeing one another succeed in making an impact on the industry. We pride ourselves on having an honest, open environment and a supportive culture where we can take risks together

- **We believe in our product** - Sprinklr is the most complete enterprise social technology in the world, and we're not just saying that Forrester Wave said it for us! As such, we have many of the world's largest brands as our clients, and our employees have the opportunity to work closely alongside them.
