Company :	ClearTax
Company Name :	ClearTax
Nature Of Business :	FinTech
Designation :	Software Engineer I
Tentative Job Location :	Bangalore

Description :

ClearTax isn't just the market leader in Income Tax filing for Consumers and B2B complianceÂ SaaS - we are a fast growing startup of smart, ambitious, hard-working individuals whoseÂ singular vision is to **Simplify Financial Lives in India** .

We are a technology company whose products include:

â€¢ The largest income-tax return filing platform for consumers and CAs in India â€" this is ourÂ flagship product where our journey really began.

â€¢ The largest platform for business and CA firms to do their GST compliance in India, withÂ users ranging from small businesses to large publicly-listed enterprises.

â€¢ A fast-growing investments platform for mutual fund investments.

â€¢ And more: financial services, TDS, business intelligence & reporting, billing, etc. â€¢ We will touch & simplify the financial lives of millions of Indians and businesses alongÂ the way, and transform the way Indians manage their finances.

Software Engineer I at ClearTax

Our engineers are involved in all parts of the product life cycle: idea generation, design,Â planning, execution, and shipping. On day to day work, we create reliable, scalable and highly performant systems. A commitment to teamwork, hustle, and good communication skills are our key requirements.

REQUIRED QUALIFICATIONS

â€¢ B.Tech or higher in Computer Science from a premier institute . (We are willing to waiveÂ this requirement if you are an exceptional programmer).

â€¢ You are a strong coder, Love to explore multiple languages and tech stacks; We areÂ language-agnostic, and we love people who like to explore multiple stacks. Weâ€™reÂ looking for people who can write clean, effective code.

â€¢ You are passionate about building scalable & performant web systems with clear focusÂ on reusable modules.

â€¢ You are comfortable in a high paced environment and can respond to urgent (and at timesÂ ambiguous) requests

â€¢ Follow Agile development model to incrementally build out the applications with regularÂ reviews with Product.
